

## **Bocacom Expands Into New Data Center**

*Bocacom expands into new data center for continued growth.*

Fort Lauderdale, FL (PRWEB) October 15, 2006 – Bocacom, a leading provider of self-managed dedicated servers, expands into a new data center to help accommodate its exponential growth. The data center, managed by 1Vault Networks ([www.1vault.net](http://www.1vault.net)), is a 66,000 square-foot facility provides a N+1 network architecture for full redundancy, 24 x 7 security infrastructure, advanced network monitoring, and on-site support. The new data center provides customers with the most secure and fault tolerant environment necessary to maintain core critical business applications.

"As we continue to grow and expand the Bocacom suite of services, the new data center provides the ideal environment for Enterprise customers as well as Fortune 500 customers. In addition to the reliable, self-managed dedicated servers from Bocacom, 1Vault Networks provides co-location and enterprise services in a fully redundant, category 5 hurricane proof facility," said Robin Thomas, Director of Marketing at Bocacom.

Tier 1 bandwidth providers include Qwest, Level3, and NTT/Verio, allowing for optimum speed and reliability across the entire data center. Customers can now enjoy the security and redundancy of the network and facilities with the 24/7/365 armed on-site security guards, 24/7/365 intrusion detection monitoring, advanced surveillance cameras, and many other security features necessary for a top-tier dedicated server hosting provider.

Bocacom is now accepting new customers to take advantage of the expansion by utilizing the facilities to enhance their business and web server needs. Both existing and new customers ordering dedicated servers will be housed in the 66,000 square-foot, 18-inch raised floor data center. Staffed by network and support engineers trained in advanced server and security configuration systems, customers will experience the ultimate in high quality dedicated servers.

### **About Bocacom**

Bocacom is a leading provider of self-managed dedicated servers providing service to customers worldwide since 2003. Known for their reliable network and solid engineering team, Bocacom is positioned at the forefront of the self-managed dedicated server market. Now providing additional services in the 1Vault Networks facility, Bocacom is delivering even more services and products to their growing customer base and potential prospects.
