

HostNine Receives Top 10 Fastest Growing Companies Award From HostReview

Web hosting company HostNine ranks #1 on HostReview.com's September 2007 Top 10 Fastest Growing companies list.

Jupiter, FL (PRWEB) September 17, 2007 - HostNine LLC, the leading shared web hosting company announced today its number one position on HostReview.com's September 2007 Top 10 Fastest Growing companies list. The list showcases fast-moving companies that are increasing quickly in size and prestige according to HostReview.com. This is the first award HostNine has received from HostReview.com.

HostNine's Director of Operations, Ben Gabler, attributes the hosting company's success to partnerships and employees. "Everything from the partnerships we have with FastServers.Net and ModernBill to the outstanding employees we have working day in and day out has contributed to our success," said Gabler. "It's an amazing feeling to know we were hand picked for this award by the DevStart team, the team behind HostReview.com."

"HostNine is a young company whose ambition has led to terrific results after only one year of service," said Maria Mitsova, Editor at DevStart, Inc. "HostNine's use of the latest technologies and the utmost care it shows for its customers won the company the top position on the HostReview fastest growing hosting companies list." When ranking hosting companies, DevStart takes into consideration a suite of factors. Factors include customer service, new products, promotions, overall performance, and the popularity of the company's website.

HostNine's use of the latest technologies includes the launch of its new Reseller Central product in August. Since the launch, the hosting company has experienced an increase in overall performance due to substantially lower server loads. "With Reseller Central backed with top quality 24/7 100% in-house American support and our server performance increases, we have the leading edge on web hosting companies," said Gabler. "Customers sign up with HostNine because they trust us with the security of their website(s). And Reseller Central provides the ability to choose from over ten different locations around the world to host their website(s)."

About HostNine
