LET'S GROW TOGETHER

10 REASONS TO CHOOSE PEER 1

- 01 Guaranteed scalable hosting solutions to meet the demands of your growing business.
- 02 Choose from Managed Hosting, Dedicated Hosting, Co-location, and Network services.
- 03 Knowledgeable, friendly team of certified experts ready to give you FirstCall Support™.
- 04 Specialized disaster recovery and business continuity plans.
- 05 21 PoPs and 15 data centers across North America and Europe for maximum connectivity.
- 06 Guaranteed 100% uptime with one of the fastest, most powerful networks available, the SuperNetwork™.
- 07 Freedom to focus on your core business instead of worrying about IT issues.
- 08 Lower costs, better performance across all hardware and software needed to keep your business running smoothly.
- 09 A Partner Network that offers you opportunities to grow your business and add more revenue.
- 10 A Microsoft® Gold Certified Partner, a Red Hat® Advanced Hosting Partner, and Safe Harbor® certified.

PEER 1's SuperNetwork™ is a Tier 1 OC-192 Internet backbone with over 13,000 miles of fiber connectivity. The network is connected by a series of peering relationships with over 500 other networks and four Tier 1 upstream providers. When you host your server on our exclusive SuperNetwork™, you get continued high performance, reduced latency, and lowered costs - all guaranteed to give you the most rewarding hosting experience of any provider.

GROW WITH US

PEER 1 makes it easy for you to focus on what you do best. You get award-winning **Managed Hosting**, **Dedicated Hosting** (through our division *ServerBeach*), **Co-location**, and **Network** services offered through 15 data centers and 21 points-of-presence (PoPs). We have engineered the SuperNetwork™ that is connected across North America and Europe for ultra-fast, powerful network speed and connectivity. With over 10,000 businesses hosted on our SuperNetwork™, PEER 1 delivers one of the highest server performance and network output in the industry. Regardless of your goal, we have the infrastructure, scalability, and resources to take your business to the next level.

KEEPING YOU CONNECTED

Finally an IT infrastructure worth talking about. A network so large in scale, so powerful, and so well connected, you will never have to worry about downtime again. Our SuperNetwork™ is powered by *Juniper* and *Cisco* technologies, and is connected to over 500 networks around the world. Designed exclusively for customers like you who want maximum uptime, faster connections, and rock-solid reliability, our SuperNetwork™ will deliver exactly what you need, when you need it the most.

OUR PROMISE

We're here to help you with every detail of your IT services. Our in-house team of experts has the means and flexibility to address your needs right away. Whether you talk to your account manager or you chat with a certified technician, you'll get the answers you want, immediately. We believe in going the extra mile to resolve problems. And we'll do everything it takes to build you the right solution, provide the right support, and give you what you need to succeed online. That's our promise.
